**PUBLIC NOTICE**

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY (LDEQ), LOUISIANA DEPARTMENT OF WILDLIFE AND FISHERIES (LWDF), NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA), AND U.S. DEPARTMENT OF INTERIOR, acting through the U. S. FISH AND WILDLIFE SERVICE (DOI/USFWS)

NOTICE OF AVAILABILITY AND PERIOD FOR PUBLIC REVIEW OF DRAFT DAMAGE ASSESSMENT AND RESTORATION PLAN/ENVIRONMENTAL ASSESSMENT FOR BAYOU VERDINE, CALCASIEU ESTUARY, LA

Pursuant to 43 C.F.R. Sections 11.32 and 11.81 - .82

Notice is hereby given that a document entitled, ADraft Damage Assessment and Restoration Plan and Environmental Assessment for the Bayou Verdine Site, Calcasieu Parish, Louisiana (Draft DARP/EA) is available for public review and comment. This document has been prepared by the state and federal natural resource trustee agencies listed above

Highway, SSMC3, F/HC3, Silver Spring, MD 20910 e-mail: Verdine.Comments@noaa.gov. The Draft DARP/EA is also available for downloading at http://www.darrp.noaa.gov (by clicking on the document title in the Bayou Verdine announcement on that page).

Comments on this plan are to be sent in writing to John Rapp of NOAA for receipt on or before [insert date corresponding to 60 days after date of publication of notice]. These written comments may be submitted either by mail at the address provided above; by fax to 301-713-0184; or by email to Verdine.Comments@noaa.gov.

**SUPPLEMENTARY INFORMATION:**

Bayou Verdine is a shallow, sinuous bayou in the upper Calcasieu Estuary, southwest of the City of Westlake and slightly northwest of the City of Lake Charles, in Calcasieu Parish, LA. It originates in an agricultural area immediately north and northwest of petroleum facilities owned and operated by ConocoPhillips Company and Sasol North America Inc., and flows in a south-southeast direction through this industrialized segment before entering the Calcasieu River at Coon Island Loop. Historical operations at these two facilities have resulted in releases of hazardous substances, such as polynuclear aromatic hydrocarbons (PAHs), heavy metals, and other hazardous compounds, into Bayou Verdine and Coon Island Loop, within the Estuary.

The upper Calcasieu Estuary has been the focus of a number of past investigations related to contaminant releases and is the subject of several on-going response or corrective action planning processes under the direction or oversight of the U. S. Environmental Protection Agency (USEPA) and/or LDEQ. The most extensive effort to identify the nature and extent of hazardous substances present in the Estuary to date is the federal-lead Remedial Investigation (RI) of contaminants in sediments, surface water, and biota in the Calcasieu Estuary undertaken by the USEPA in 1999. Results from this investigation, combined with other relevant data and information, prompted the Trustees to pursue a natural resource damage assessment (NRDA) to determine and quantify resource injuries and losses in the Estuary attributable to hazardous substances from the PRPs' facilities and to develop a restoration plan that would be sufficient to compensate for those losses. The Trustees' decision to proceed with this NRDA was identified in a "Notice Of Intent To Perform Damage Assessment & Develop Restoration Plan for Natural Resources Injured by Hazardous Substances in Bayou Verdine & Coon Island Loop in Calcasieu Parish, Louisiana" published September 26, 2004, in the American Press, a newspaper of general circulation in Calcasieu Parish, LA. That notice also invited public input regarding potential restoration opportunities in the watershed that the Trustees could consider in developing an appropriate restoration plan. The PRPs were cooperatively involved in the NRDA process as well, consistent with 43 C.F.R. 11.32.

The Draft DARP/EA released today identifies the Trustees' proposed assessment of natural resource injuries and losses due to past releases from these facilities and identifies the restoration action which is preferred for use to restore, replace or acquire resources or services equivalent to those lost.
